7+	5,902	70,819

- "Family" refers to everyone living in the same household who are related by marriage, common-law, or an adult interdependent relationship, including their dependents.
  - If the proposed Represented Adult (RA) lives in the same household as the applicant, they are *not* included in the family count, as their eligibility for financial assistance is assessed separately.
- "Gross Family Income" includes all income earned by the applicant's family *before* taxes or other deductions.
- If there is more than one (1) applicant, and they live in *different* households, each person must submit the required documents to determine eligibility
